This garden weaves perennials, grasses and bulbs into a beautiful tapestry of changing colors and dynamic textures. The look is ethereal, but the plants are as tough as nails. This border will tolerate heat and drought, and requires very little maintenance. Planted among these easy-care perennials are three types of alliums, each with a different height, flower size and bloom time. They will be the crowning jewels in this contemporary garden design.

Size: 10 feet x 18 feet
Soil: Well drained
Light: Full sun

Blooms: March-September
Hardiness: Zones 5-8
